When I decided I'd stop at nothing to become a Vampire Hunter, even though my older sister and her teammates knew I wasn't ready, I got myself into trouble—a whole lot of trouble. Now, I'll never be exactly what I wanted to be—and I'll never be the same as I was before either. There's a dangerous Vampire on the loose, and I know I'm the only one who can stop him from continuing to prey on the innocent. But since I've already broken my sister's trust, how can I prove to her that I'm more than just her little sister? I'm a weapon. We both know there's no one else in the world like me, but I'll have to show her I can follow her orders before she'll let me move forward with my plan. And that's a problem. Because we also both know following directions is no longer my strong suit. Will I be able to stick to my training long enough to demonstrate my value or will the Vampire continue his destruction? My name is Cassidy Findley, and this is my life as a teenage Vampire Hunter.

The Chronicles of Cassidy is a retelling of The Clandestine Saga specifically for young adult/teen readers told from the perspective of high schooler Cassidy Findley.

Bomb Steve Sheinkin 2012-09-04 In December of 1938, a chemist in a German laboratory made a shocking discovery: When placed next to radioactive material, a Uranium atom split in two. That simple discovery launched a scientific race that spanned 3 continents. In Great Britain and the United States, Soviet spies worked their way into the scientific community; in Norway, a commando force slipped behind enemy lines to attack German heavy-water manufacturing; and deep in the desert, one brilliant group of scientists was hidden away at a remote site at Los Alamos. This is the story of the plotting, the risk-taking, the deceit, and genius that created the world's most formidable weapon. This is the story of the atomic bomb. Bomb is a 2012 National Book Awards finalist for Young People's Literature. Bomb is a 2012 Washington Post Best Kids Books of the Year title. Bomb is a 2013 Newbery Honor book.

The Secret Weapon Bradley Wright 2020-04-26 The CIA keeps a lot of secrets. None more deadly than him. After a covert mission became personal, the only way elite counterterrorism operative, Alexander King, could keep his loved ones safe, and the eyes of Washington's enemies blind to his existence, was to disappear. A year after his family buried a body they thought was his, King saves a young woman from a car bomb in London, and that's when his work in the shadows becomes complicated. Because she's not who he thinks she is, and the web that King

is pulled into is tangled with enemies that reach the highest levels of the United States government. But this web being spun by a sadistic terrorist isn't your average one-time explosive attack. Saajid Hammoud is aiming higher. He isn't trying to cripple the greatest military in the world, he's looking to control it. And owning the presidential candidate with a clear path to the White House gets him all the way to the top. When politics fail, and the might of the world's most powerful nation hangs in the balance, it's secret weapons like Alexander King who scour the alleys and back avenues that often make the difference. Unfortunately, King isn't the only secret in this high stakes game of war. But for the sake of the free world, he sure as hell better be the best. If you couldn't put down Vince Flynn's Mitch Rapp, Lee Child's Jack Reacher, Tom Clancy's Jack Ryan, Brad Thor's Scot Harvath, or David Baldacci's Will Robie, fans of Bradley Wright believe you won't be able to put down the addictive Alexander King.

Come Fly the World Julia Cooke
2021-04-08 Travel writer Julia Cooke's exhilarating portrait of Pan Am stewardesses in the Mad Men era. Glamour, danger, liberation: in the Jet Age, Pan Am offered young women the world. *Come Fly the World* tells the story of the stewardesses who served on the iconic Pan American Airways between 1966 and 1975 – and of the unseen diplomatic role they played on the world stage. Alongside the glamour was real danger, as they flew soldiers to and from Vietnam and staffed Operation Babylift – the dramatic evacuation of 2,000 children during the fall of Saigon. Cooke's storytelling weaves together the true stories of women like Lynne Totten, a science major who decided life in a lab was not for her, to Hazel Bowie, one of the relatively few African American stewardesses of the era, as

they embraced the liberation of a jet-set life. In the process, Cooke shows how the sexualized coffee-tea-or-me stereotype was at odds with the importance of what they did, and with the freedom, power and sisterhood they achieved.
